

## **M2P KIDS July Social Media Image Copy and Captions**

### **Image 1 Copy: Learn To Just Talk**

Caption: At times, it feels like an entire generation is losing a skill that is vitally important, and that is the ability to simply have face-to-face conversations. They are learning to communicate with each other and with us through screens, devices, and apps, and all of this is being introduced to kids at earlier and earlier ages. Our kids need to learn that communication happens best when we can just talk ... when we can have a conversation about what is going on, and we can deal with whatever issues are at hand.

### **Image 2 Copy: Be Grounded In Your Faith**

Caption: When we, as adults, are grounded in our faith, and we are modeling what it looks like to authentically follow Jesus, it speaks volumes to our kids in every way. The picture of faith that our kids see in us has an impact on how they see their life and their faith. What we think, what we say, and how we act influences what they think, what they say, and how they act.

### **Image 3 Copy: Model Healthy Conversations**

Caption: Model having healthy conversations. If we hope to have good and healthy conversations with our kids, then they need to believe that we are capable of having good and healthy conversations, and that starts with what they see us do.

### **Image 4 Copy: Moving From Content To Connection = Conversations**

Caption: We need to care more about the connection we have with our kids than we are with the content we deliver to them. If we're going to be able to have the kinds of conversations we want and need to have with our kids, we need to have the kind of relationship that can bear the weight of those conversations.
